

**Mapping itineraries": Portfolio III**  
**Due: November 29th**

In light of the portfolio work that you have done to this point of the semester, you are now in an ideal situation to put together an interesting research essay of some kind. Therefore, with the aid of further class discussion, I ask that you devise and execute a imaginative "research" paper, seven to ten pages in length, following MLA format, to be turned in on Thursday, November 29th.

Please be sure to draw from all that we have done together as you work, and do not hesitate to communicate with me throughout every stage of the writing process.

Finally, use you imagination, and have fun,

Tom
